

Pollution & Best Management Practices

Name _____

Date _____

Class _____

Instructions

Work within your group to identify the pollutants illustrated in “Picture Water Pollution.” Refer to the “BMP Cards” for ideas of **Best Management Practices** that the JPWP organization you represent would use to help reduce this pollution. Write in complete sentences and use the back of this worksheet if you need more room.

1. Which JPWP partner organization do you represent? _____

2 Review the “Picture Water Pollution” illustration and complete the below chart to indicate ten specific stream **pollutants**, their sources (both point and non-point), and Best Management Practices to reduce each.

Pollution	Source	Best Management Practice (from the perspective of your organization)
Example: Nitrogen	Backyard fertilizers	<i>Follow the instructions on the bag to apply the correct amount of fertilizer</i>
