

Tips and Resources for Plant-A-Seed

Supplies

Although most items can be bought locally, you may need to order some hard-to-find items. Below are suggestions for where to find supplies.

Forestry Suppliers: <http://www.forestry-suppliers.com/>, 1-601-354-3565

- GREEN water monitoring kits
- Leaf pack flash cards
- Kick nets w/ poles
- Two-way radios
- Flags
- USDA Soil Texture Field Flow Chart

The Arbor Day Foundation: <http://www.arborday.org/trees/wtit/>, 1-402-474-5655

- “What Tree Is That?” tree identification keys

Earth Force: <http://www.earthforce.org/section/programs/green> , 1-703-519-6877

- GREEN water monitoring supplies

Qualified Professionals to Lead the Stations

The below list includes organizations that may be willing to volunteer their time to talk to your students about water quality or to run one of your Plant-A-Seed stations. You should be able to find their contact information on the Internet.

- U.S.D.A. Forest Service
- State Department of Environmental Quality (local office)
- State Department of Conservation (local office)
- State Department of Forestry (local office)
- Soil and Water Conservation Districts (local office)
- Town or City Department of Parks and Recreation
- Local/regional environmental nonprofits
- Citizen watershed monitoring or advocacy organizations
