

## **Seed Drop -off Procedures**

- 👉 **Step 1:** Find your nearest drop-off site by visiting [www.GrowingNative.org](http://www.GrowingNative.org).
- 👉 **Step 2:** Place seeds in bags that have been provided. Be sure to place each species in its own bag. Do not include debris—except for a leaf and stem for identification purposes—in the bags.
- 👉 **Step 3:** Fill out one identification tag per bag. This information is very important to the nursery.
- 👉 **Step 4:** Tie the tag securely to the bag.
- 👉 **Step 5:** Put the seed bag in the drop-off box.
- 👉 **Step 6:** If you are a group leader, fill out and submit your paperwork.
- 👉 **Step 7:** Let us know how your seed collection went by contacting Potomac Conservancy at [coordinator@potomac.org](mailto:coordinator@potomac.org).

**If there are no bags or tags at the drop-off site, please call Potomac Conservancy's Growing Native Coordinator at (301) 608-1188 x204.**
